Preface

This Companion Guide to the version 005010 (v5010) ASC X12N Implementation Guides and associated errata adopted under HIPAA clarifies and specifies the data content when exchanging electronically with Los Angeles County Department of Mental Health (LACDMH). Transmissions based on this companion guide, used in tandem with the v5010 ASC X12N Implementation Guides, are compliant with both ASC X12 syntax and those guides. This Companion Guide is intended to convey information that is within the framework of the ASC X12N Implementation Guides adopted for use under HIPAA. The Companion Guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the Implementation Guides.

This Companion Guide addresses specific DMH business process requirements for transmitting claim data to the LACDMH Integrated Behavioral Health Information System (IBHIS) system. In addition to the LACDMH business requirements, all 837 transactions transmitted from the providers to LACDMH must be compatible with the HIPAA requirements. It is assumed that trading partners are familiar with the HIPAA Implementation Guides and, as such, this guide does not attempt to instruct trading partners in the creation of an entire HIPAA transaction.

However, samples of entire transaction will be given to trading partners during registration/orientation process.

This Companion Guide is subject to change. Please visit our website for the latest version:

6 LACDMH BUSINESS RULES AND LIMITATIONS

6.1 Business rules for Inbound 837 Transactions

1. LACDMH requires an authorization for all services. There are 3 types of authorizations. A provider will put only 1 authorization on a claim line. If a service requires individual Member Authorization, the claim will only have the Member Authorization. Otherwise, Legal Entities will use the Provider Authorization and Fee-for-Service providers will use the Funding Source Authorization.
 - Provider Authorizations, or P-Auths, are specific to a Legal Entity/Contracting Provider and to a Funded Program/Funding Source. Generally, Provider Authorizations will cover a complete Fiscal Year. A report with a Legal Entity's Provider Authorizations will be included in the Legal Entity's EFT extracts.
 - Provider Authorizations begin with a 'P', followed by a number.
 - Member Authorizations are specific to a client and to a Contracting Provider. They authorize specific services for a specific duration of time. Member Authorizations are also tied to a Funded Program/Funding Source, however when claiming only send the Member Authorization. The initiation of a Member Authorization will vary based on the type of services provided.
 - Day Treatment and Fee-for-Service over-threshold authorizations will be requested through ProviderConnect, a web portal to the IBHIS system. Providers will see the authorization number when they make the request, however the authorization cannot be used on claims until the authorization request has been approved. Providers will also be able to see the authorization status on ProviderConnect.
 - Member Authorizations are all numeric.
 - Funding Source Authorizations will be used by Fee-for-Service providers for under-threshold and medication support services. Under-threshold Funding Source authorizations will cover a four-month (trimester) period of time and providers will use a different Funding Source authorization for each trimester. Further information on which Funding Source authorization to use will be provided in Fee-for-Service Provider Bulletins.
 - Funding Source Authorizations begin with an 'F', followed by a number.
2. Legal Entity providers must use Medi-Cal Authorizations for claims that are billable to Medi-Cal.
3. The Rendering Provider on the claim must be associated with the Legal Entity or FFS provider in the IBHIS Contracting Provider table.
4. The Practitioner's Discipline will be determined based on the information stored in the IBHIS Practitioner/Performing Provider table. IBHIS validates that the Practitioner (837 Rendering Provider) is allowed to perform the procedure code on the claim, based on the discipline stored in the IBHIS Practitioner/Performing Provider table.
5. Group claims - Refer to the explanation found in the Group Claim Bulletin located on the IBHIS EDI News/Alerts webpage: http://lacdmh.lacounty.gov/hipaa/IBHIS_EDI_News.htm.
6. Refer to the Addendum Guide to Procedure Codes for IBHIS located at http://dmh.lacounty.gov/wps/portal/dmh/admin_tools/prov_manuals for a complete list of Procedure Codes in IBHIS (including the modifiers for Duplicate Overrides (59 & 76), Telephone (SC), Telepsychiatry (GT) and/or County Funded (HX).
7. Use the County Funded Procedure Code Modifier when submitting claims using non-Medi-Cal outpatient Provider Authorizations.
 - The duplicate (76, 59), telephone (SC) and telepsych (GT) modifiers are not used when sending claims using non-Medi-Cal authorizations that use the HX County Funded modifier.
 - The County Funded Procedure Code Modifier, HX, is not used on CalWORKs, Residential or Inpatient claims.
8. LACDMH 835s
 - Providers will receive an 835 for all Approved and Denied claims at the time that the claim is adjudicated and the provider receives payment. Providers will not receive a separate 835 with just Denied claims.
9. Retroclaim adjudication.
 - Providers will receive an 835 for all claims at the time that the claim is adjudicated and the provider receives payment. Medi-Cal claims that are subsequently denied by the state will result in a 2nd 835, known as a retroclaim adjudication. Retroclaim adjudication 835s follow all of the standard HIPAA 835 requirements for reversals and corrections. See the HIPAA 835 v5010 Technical Report, section 1.10.2.8 – Reversals and Corrections for further information.
 - Retroclaim adjudications will also be reported in all SIFT reports that provide claim level data.

10. Replacement Claims:

- Send Replacement claims when you've received a Retroclaim adjudication for a Medi-Cal denial and need to correct the claim and have it resubmitted to the state. You can send a Replacement claim after each Retroclaim adjudication/Medi-Cal denial.
- Do not send Replacement claims in response to LACDMH denials, i.e. any claim that was not paid in the initial adjudication cycle. Send in a new Original claim to correct claiming errors.

11. Residential and PHF Claims.

- Claims for Residential and PHF services must be reported using the 837 Professional format.
- Residential and PHF claims must report claims in UNITS using 'UN' as the Unit or Basis of Measurement Code in SV103. The Units are the number of days you are claiming for.
- Submit the range of dates that you are claiming for in the Service Date segment.
- Example – if you are claiming for April 2014, you will claim 30 Units and the Service Date range will be 20140401-20140430.

12. Successful claims processing is dependent on consistency between 837 claim data and the client data that is established through the Client Web Services interface. The following inconsistencies will result in claim denials:

- The client ID, gender and date of birth on the claim must match the client ID, gender and date of birth in IBHIS.
 - Client ID – 2010BA/NM109 Subscriber Primary Identifier
 - Gender – 2010BA DMG03 Subscriber Gender Code
 - Date of Birth – 2010BA DMG02 Subscriber Birth Date
- IBHIS validates that the client has a Legal Entity or FFS episode for the date of service on Outpatient and Day Treatment claims.
- IBHIS validates that the client has a unique episode at the program of service level for all 24-hour services and that the service/statement dates are within the episode. 24-hour services include Inpatient, Residential and psychiatric health facility (PHF).
- Inpatient, Residential and PHF claims that include the discharge date will be denied unless the admit and discharge dates are the same date of service
- IBHIS validates that claims with Medi-Cal Funding Source authorizations have an established Medi-Cal Guarantor in their Financial Eligibility (Medi-Cal (10), Healthy Families (11) or Katie A Medi-Cal (18)). The Medi-Cal Guarantor must be set with Eligibility Verified set to Yes.
- IBHIS validates that claims with non-Medi-Cal Funding Source authorizations have the LA County Guarantor (16) in their Financial Eligibility.
- IBHIS validates that claims with CalWORKs authorizations have the CalWORKs Guarantor (17) in their Financial Eligibility.
- IBHIS validates that the Payer ID on claims with Medicare and/or Other Health Care matches the Payer ID of one of the clients Financial Eligibility guarantors.
 - Payer ID – 2330B NM109 Other Payer Primary Identifier

13. COS Claims - COS claims will be processed the same as any other 837 claim:

- COS claims are delivered to the same file location as any other 837 file.
- COS claims can be included in the same 837 transaction as an 837 that contains direct service claims.
- COS claims will be reported via the standard 999, 277CA and 835 response files.
- Void/Replacement functionality will be available in the same way that any 837 for direct services is Replaced or Voided.
- They will be listed on all SIFT reports that provide claim level data.
- COS claims must be reported with the total # of minutes for all practitioners involved in providing the service. DMH IBHIS rate tables have been modified to pay by the minute, rather than by the hour.

14. LACDMH allows one service line per claim.

6.2 Generation of Outbound 837 Medi-Cal Claims

1. The Practitioner's Taxonomy will be transmitted to the state based on the information stored in the IBHIS Practitioner/Performing Provider table.

2. The Pregnancy Indicator will be transmitted to the state based on the information stored in the IBHIS Client Condition – Pregnancy table. EDI Providers will update the pregnancy information via Client Web Services or Fee-for-Service providers will update client pregnancy information using ProviderConnect.
3. The Katie A. Demonstration Project Identifier will be transmitted to the state based on the Guarantor information stored in the IBHIS Financial Eligibility form. Katie A sub-class clients must be set up with the Katie A. MediCal Guarantor (#18) for all applicable time periods. EDI Providers will update the Financial Eligibility information via the Client Web Services or Fee-for-Service providers will update Financial Eligibility information using ProviderConnect.
4. The Healthy Families SED indicator will be transmitted to the state based on the Guarantor information stored in the IBHIS Financial Eligibility form. Healthy Families clients should be set up with the MediCal Healthy Families Guarantor (#11). EDI Providers will update the financial eligibility information via the Client Web Services or Fee-for-Service providers will update Financial Eligibility information using ProviderConnect.
5. Claims are only sent to the state when the Financial Eligibility/Eligibility Verified flag is set to Yes via Client Web Services. Providers indicate to LA County DMH which claims are to be sent to the state by using Medi-Cal Authorizations on their EDI claims.
6. Financial Eligibility information is entered via Client Web Services. The client's demographic information that's sent to the state comes from the Financial Eligibility information stored in IBHIS as the subscriber information. The following data elements will be sent on outbound 837P and 837I Medi-Cal claims based on the information entered in Financial Eligibility for Medi-Cal (Medi-Cal, Healthy Families or Katie A Medi-Cal guarantors) and for Medicare/OHC when the claim was previously adjudicated by another payer:

 - Client's Relationship To Subscriber
 - Subscriber First Name

 - Subscriber Policy # (CIN for Medi-Cal, HIC for Medicare, subscriber ID for OHC)
 - Subscriber Assignment of Benefits
 - Subscriber Release of Information
 - Subscriber's GenderClient Date of Birth will also be sent on outbound 837 Medi-Cal claims.
7. The following data elements will be sent on outbound 837I Medi-Cal claims based on the information entered via the Client Web Services Admit and Discharge Client routines:

 - Discharge Date and Time
 - Type of Admission
 - Source of Admission
 - Type of Discharge
